3.0 INSPECTIONS: MINIMUM NUMBER AND WHEN REQUIRED

3.1 Electrical: Single-Family Residential

For new construction a minimum of three inspections are required, a service, rough and final inspection. An additional inspection shall be required if temporary service is provided.

Remodels shall require a minimum of two inspections, a rough and a final. For all other types of work of this class, inspections shall be required for each visit required from the electrical inspector.

3.2 Electrical: Multiple-Family, Commercial, and Industrial

For a multiple-family structure or multi-tenant commercial or industrial building, a minimum of two inspections, a rough and a final, shall be required for each living or work unit in such a structure. An inspection shall also be required for the service.

For all other buildings of this class, inspections shall be required for each visit required from the electrical inspector. The inspector shall estimate the number of visits required.

A separate inspection shall be required for temporary service.

3.3 Mechanical: Single-Family Residential

1. For new construction a minimum of three inspections, a rough, final, and gas line inspection shall be required for each heating system. A separate inspection shall be required for each cooling system. A heating or cooling unit without a distribution system shall require one inspection.

Remodels shall require a minimum of a rough and final inspection. For all other types of work of this class, inspections shall be required for each visit required from the mechanical inspector.

2. Pre-fab fireplaces shall require a minimum of one inspection per dwelling unit. Multiple fireplaces in the same dwelling unit and inspected on the same visit shall require one inspection. Units may also require a gas line pressure test and inspection.

3.4 Mechanical: Multiple-Family, Commercial, Industrial

Each heating and/or cooling unit shall require one inspection. Each multi-family dwelling unit shall require a rough and final. Installation or modification of any distribution system not involving the associated heating/cooling unit shall require

one inspection. Where an underground inspection(s) is required, an additional inspection shall be charged per visit. Gas lines require an additional pressure test and inspection per system.

Refrigeration units of one horsepower or greater shall require one inspection per unit.

Concealed piping shall require an additional inspection per system.

3.5 Plumbing: Single-Family Residential

For new construction an underground, rough and final plumbing inspection shall be required.

Remodels shall require a minimum of two inspections, a rough and final. For all other types of work of this class, inspections shall be required for each visit required from the plumbing inspector.

3.6 Plumbing: Multiple-Family, Commercial, Industrial

Each unit in a multiple-family structure or in a multi-tenant structure shall require a rough and a final inspection. An additional inspection for underground plumbing shall be required for each unit in a strip center. A multiple-family structure or other multi-tenant building shall require an additional inspection for underground plumbing at the rate of one inspection per building. An additional inspection shall be required for sewer and water service.

All other commercial and industrial buildings shall be charged at the rate of one inspection for each visit required from the plumbing inspector. The inspector shall estimate the number of visits required.

3.7 Building: All Construction

Building inspections shall follow the schedule below to the extent applicable:

- a. Footing - before footing is poured. Property lines must be identified for the inspection.
- b. Backfill - before foundation wall is backfilled and before slab floors and with sill plate and foundation drain in place and anchor bolts installed.
- c. Brick Ledge - after first course of brick, flashing, weep holes, and pea stone are installed.
- d. Rough - before any framing is covered and after rough electrical, mechanical and plumbing inspections are approved.
- e. Insulation - prior to covering insulation.
- f. Slab - prior to pouring concrete slab with sub-base, forms and any reinforcement and insulation installed.
- g. Fireplace - Masonry - when damper and first flue liner are in place.
- h. Drywall - fastener inspection before drywall is taped.
- i. Final - after final electrical, plumbing, and mechanical inspections are approved.
- j. Final Site/Certificate of Occupancy - when all inspections are approved and prior to Occupancy. It is illegal to occupy a building before a Certificate of Occupancy is issued. As built drawings including the approved, existing, final grade elevations must be received before an occupancy certificate can be issued.

Section 12. FOIA FEES

A fee will not be charged for the cost of search, examination, review and the deletion and separation of exempt from nonexempt information unless failure to charge a fee would result in unreasonably high costs to the City because of the nature of the request in the particular instance, and the City specifically identifies the nature of the unreasonably high costs.

The Michigan FOIA statute permits the City to assess and collect a fee for six designated processing components. The City may charge for the following costs associated with processing a request:

- Labor costs associated with searching for, locating and examining a requested public record.
- Labor costs associated with a review of a record to separate and delete information exempt from disclosure of information which is disclosed.
- The cost of computer discs, computer tapes or other digital or similar media when the requester asks for records in non-paper physical media.
- The cost of duplication or publication, not including labor, of paper copies of public records.
- Labor costs associated with duplication or publication, which includes making paper copies, making digital copies, or transferring digital public records to non-paper physical media or through the Internet.
- The cost to mail or send a public record to a requestor.

1.0 Labor Costs

- All labor costs will be estimated and charged in 15-minute increments with all partial time increments rounded down.
- Labor costs will be charged at the hourly wage of the lowest-paid City employee capable of doing the work in the specific fee category, regardless of who actually performs work.
- Labor costs will also include a charge to cover or partially cover the cost of fringe benefits.

2.0 Non-paper Physical Media

- The cost for records provided on non-paper physical media, such as computer discs, computer tapes or other digital or similar media would be at the actual and most reasonably economical cost for the non-paper media.
- This cost will only be assessed if the City has the technological capability necessary to provide the public record in the requested non-paper physical media format.

3.0 Paper Copies

- Paper copies of public records made on standard letter (8 ½ x 11) or legal (8 ½ x 14) sized paper will be \$.10 per sheet of paper. Copies for non-standard sized sheets will reflect the actual cost of reproduction.
- The City may provide records using double-sided printing, if cost saving and available.

4.0 Mailing Costs

- The cost to mail public records will use a reasonably economical and justified means.
- The City may charge for the least expensive form of postal delivery confirmation.
- No cost will be made for expedited shipping or insurance unless requested.
