11. BRA Project No. 02-01 – Campbell Corners

Community Development Director Schafer discussed the draft copy, dated October 14, 2002, of a proposed "Brownfield Plan for Campbell Corners Project". The draft Plan details the applicant's proposal to seek a Single Business Tax (SBT) credit on this site in an estimated amount of \$5.3 million dollars, pursuant to P.A. 143 of 2000. The draft plan indicates that the site is a "Facility" based on the results of a Baseline Environmental Assessment conducted by The Traverse Group and appears to meet State required Plan Content criteria. The new owners, Campbell & 14 Center, L.L.C., are not requesting any involvement by the Brownfield Redevelopment Authority or the City in terms of funding or tax increment financing, but only a recommendation by this Board and approval of the Plan by the City Council. The consultants, who were not present, were notified to appear at this meeting to present a summary of the findings, to answer technical questions about the completed Environmental Site Assessments (ESA) and the Baseline Environmental Assessment, and to give an overview of the due care activities anticipated during construction.

Mr. Austin asked if the parking lot was to be redone as part of the improvements. Mr. Schafer stated that the parking lot is to be redesigned and a landscaped island running north and southwest of the existing Credit Union will be put in to eliminate cars cutting through at that area and make it safer for pedestrians. Mr. Austin asked if the site plan incorporated pedestrian crossings so that they don't ruin the landscaping. Mr. Schafer stated there will be a pedestrian walk next to the parking tiers and there will be three crosswalks with one directly across from the Credit Union.

Motion by Mr. Austin, supported by Mr. James, to recommend approval to City Council of a proposed Brownfield Redevelopment Plan - Campbell Corners Project, pursuant to Public Act 381 of 1996, as amended, for the redevelopment of the existing shopping center at the southeast corner of Campbell Road and 14 Mile Road, as follows:

12. Miscellaneous Discussion

Chairman Fox asked for comments or requests from each member:

C.D. Director Schafer stated that current DDA area activities are:

- Oil Change facility at 12 Mile & John R is progressing
- Farnum Plaza improvements are a new parking lot and façade upgrade
- The Roost at John R & 11 Mile is operating and may have a signage appeal due to the fact that the property owner assigned all allowed signage to one other business.

Mr. James stated he is impressed with the improvements that have been made due to the activities of the Downtown Development Authority.

Ms. Spreitzer stated that she is concerned about safety at the Kmart store and the gas station located on the west side of 12 Mile and John R which have an increasing number of derelicts hanging around.

Mayor Swanson asked about the status of hiring one Economic Development person. Mr. Austin stated that candidates have been interviewed and someone should be hired shortly. The person will work to attract new businesses, to communicate with existing businesses, and to work with the Chamber of Commerce, Brownfield Redevelopment Authority, Downtown Development Authority and Economic Development Corporation.

Mr. Fisher commented that Madison Heights was the first community in Oakland County to have an Economic Development Corporation.

Mr. Lucich commented that the Fourth Reich Motorcycle Club may expand into the vacated print shop at 716 W 11 Mile.

Ms. Sames requested a Code of Ordinances book for the Chamber because she gets calls concerning rules for signage and would like a book to look up that and other questions that arise. Mr. Austin stated that the Code is also on the Web Page, but noted that there are also other State and National Codes and that City staff would be happy to clarify and answer any questions. Mr. Schafer requested that the Clerk's Office add the Chamber to the list that receives quarterly supplements to the Code.

Mr. Fox stated he would like to see the Chamber, Businesses and City breakfasts reinstated that were held a few years ago, because it was a good forum to discuss and work out problems and misunderstandings.

Ms. Renshaw stated she would like to see the D.D.A sponsor community breakfasts on a quarterly basis with the City and businesses, especially with new businesses who need to know what the requirements are and where to go for help. She also stated that she had a fire alarm incident and was told that there are lock boxes that can be installed to let the Fire Department into a building when the owner isn't immediately available. She said this would be something that would be beneficial for all businesses and asked where to get one. Mr. Austin stated it is similar to a real estate lock box and that the Fire Department could give her information.

Mr. Johnson asked if there have been any inquires about the property on the northwest corner of 11 Mile and John R. Mr. Schafer stated there has not, and that discussions with CVS concerning a redevelopment to improve that corner have been well received.

Mr. Austin encouraged the Board to keep the City informed on what is going on in the business community

Mr. John stated he has been a business owner for 17 years and is happy with the cooperation he has received from the City.

Excused: Mr. James, Mr. Johnson and Ms. Spreitzer
Also Present: Community Development Director Schafer, Economic Development Coordinator Seitz, Deputy City Clerk Corbett.

1. Minutes

Motion by Mr. Swanson, supported by Mr. Lucich, that the minutes of the Special Meeting of the Brownfield Redevelopment Authority held on October 22, 2002, be adopted as printed.

Yeas: Austin, Bera, Fender, Fox, John, Lucich, O'Brien, Renshaw, Sames and Swanson

2. BRA Project No. 04-01 – Sam's Club

Economic Development Coordinator Seitz stated that the purpose of this meeting is to review the proposed Brownfield Plan for a Sam's Club Relocation and Expansion Project on the northeast corner of John R Road and 13 Mile Road. This project will include the construction of an expanded warehouse/retail facility and a gasoline station, on the following parcel numbers: 25-01-351-010, 25-01-351-015 and 25-01-351-016)

Patrick Bell and Bob Terry of Atwell-Hicks, Inc. were at the meeting representing the applicant. Mr. Bell stated that the site has been deemed a "facility" according to testing that was done during their Baseline Environmental Assessment (BEA), Phase I Environmental Site Assessment, and Phase II, Subsurface Investigation. Mr. Bell stated

that contaminated soil has been found at several different locations on the site, including dry cleaning fluids from a dry cleaning business that had been in the shopping center, high levels of metals in the area where the proposed underground gasoline storage tanks will be located, and high levels of volatile organic chemicals contaminating the soil near the World of Floors building which they attribute to contaminated land fill.

He presented the Sam's Club site plan that indicated the areas that need to be remediated before there can be further commercial development of the property. The total remediation costs are estimated at \$362,000 to excavate, remove and properly dispose of the contaminated material to a land fill, and then replace with clean fill material. Sam's Club has met with the City and is asking for a 50% reimbursement of the remediation costs in the estimated amount of \$181,000. Reimbursement by the City would be completed through a Tax Increment Finance Plan over a proposed 12 year period.

Patrick Bell then proposed that the Board consider a change to the application:

1. 15% administrative costs be captured by the Brownfield Redevelopment Authority each year for the life of the project.
2. Full tax capture by the Brownfield Redevelopment Authority for the life of the project, with the applicant still only receiving 50% of the capture each year for reimbursement.
3. Reduce years of the TIF accordingly.

The Board discussed the various options in setting up the Tax Increment Finance Plan in order to reimburse Sam's Club 50% of their remediation costs, collect administrative costs, and capture funds in order to set up a Local Site Remediation Fund for future Brownfield projects in the City.

Motion by Mr. O'Brien, supported by Mr. Swanson to recommend approval to City Council of a proposed Brownfield Redevelopment Plan – Sam's Club Project, pursuant to Public Act 381 of 1996, as amended, for a Sam's Club Relocation and Expansion Project on the northeast corner of John R Road and 13 Mile Road, as follows:

003. Project 06-01 – Patina Park Place, 26717-26723 John R

Economic Development Coordinator Joyce Seitz presented the proposed Brownfield Plan for Patina Park Place, 26717-26723 John R Road for a mixed-use development entitled “Patina Park Place”. The developer is proposing to erect two, three-story buildings, a live-work loft style, with the front building housing six (6) units and the back building housing five (5) units. Each unit is to have retail or office on the first floor with two stories of residential above. Ms. Seitz introduced Duane Walczak, Project Applicant, Michelle Dorian and Linda Lintner, all from Dorian Construction Co. and David Switzer, Environmental Engineer from Yeoman Group. She stated the project has received site plan approval and reviewed the Staff comments and recommendations for the draft plan of “Brownfield Plan for Patina Park Place”.

- The applicant is requesting reimbursement in the amount of \$1,248,620 for the eligible demolition, infrastructure improvements, soil remediation and project oversight costs.
- Applicant intends to apply to the State of Michigan for State Tax (SBT) credits for the estimated \$1.24 million dollars of eligible investment on this site based on results of soil borings done by Yeoman Group in February 2006 qualifying the site for tax increment financing and SBT credit eligibility.
- No City funds or tax revenue is proposed to reimburse this project. All of the reimbursement will be directly from the State of Michigan through school tax capture during a 14-Year Plan. Because the project is in the DDA District no local funds will be used to reimburse this project.

Recommendations:

1. The Applicant to revised Exhibit A – the project environmental response and demolition budgets to eliminate reimbursement for any development costs that are not due to environmental remediation in Budgets 1 and 2.
2. Applicant to revise the TIF schedule in accordance with the new project budgets.
3. Applicant agrees to retain ownership of this property for the number of years after reimbursement is completed (proposed 14-Year Plan) or the total tax amount reimbursed to the developer will be paid back to the taxing jurisdictions.

4. A provision in the agreement stating that applicant will not contest a sidewalk or road Special Assessment in the future.

Community Development Director Jim Schaefer stated that staff is asking that the Board determine whether some of the site development costs that the Developer is asking to be reimbursed are not due to environmental remediation but are normal site developments costs.

Duane Walczak, Applicant, stated that there are no building costs associated with the Brownfield Plan. He stated that to be eligible for a brownfield reimbursement there must be contamination on the site, and to determine that they have to expend their own funds for testing. He gave examples of how, how appear to be ordinary building costs, become part of the search for contamination and therefore become reimbursable, such as tree removal, asphalt removal and road washing. It is difficult to estimate how much these costs will be and is asking that they be authorized to go into the site to determine the extent of the contamination. At that time they will put a Due Diligence Plan together.

David Switzer, Environmental Engineer, stated that all of the expenses paid by Mr. Walczak to-date are not reimbursable. The goal is to determine if the site is contaminated or not and to determine, as much as possible, the costs to clean up the site. He stated that small, preliminary tests showed high levels of arsenic and selenium, which have low clean-up possibilities and are dangerous to residential sites. Due to the contamination the site qualifies as a brownfield site. After approval by Council he will develop a Phase 2 plan for the Department of Environmental Quality.

Steven Mann of Miller, Canfield, Paddock and Stone, representing the City, stated that the applicant has done enough preliminary environmental testing to make sure that the site is beyond the requirements of the DEQ to determine that the site needs to be cleaned before it can be used for residential purposes. He stated that if the Board approves the plan then the City Council would hold a public hearing. If approved, the plan would have to be approved by the DEQ for capture of school taxes only, since local taxes are already being captured by the DDA, where the property is located.

Duane Walczak, Applicant, stated that it would appear favorable to the SBT if the Downtown Development Authority authorized funds for the project and requested that it be considered. This would also enable the project to begin yet this year before winter.

Motion by Mr. Swanson, supported by Mr. Johnson, to approve the Brownfield Redevelopment Plan for Patina Park Place, as attached.

Amendment to Resolution

Motion by Mr. Swanson, supported by Mr. Johnson, to add the following revision to the Resolution Approving a Brownfield Plan for Patina Park Place:

- The applicant revises the Brownfield Plan to match the revised TIF Schedule, dated June 21, 2006, and submit a proposed form of agreement to show the following:
 - a. Applicant agrees not to contest any future sidewalk or road Special Assessments pertaining to the subject property or within adjacent rights of way.

03. Patina Park Place – Reimbursement Agreement Authorization

Community Development Director Schafer stated that the Reimbursement Agreement will provide for the Authority to reimburse the Developer for the cost of eligible activities from tax increment revenue for the approved Patina Park Place Brownfield Plan. Steve Mann, attorney for the Board, reviewed the Reimbursement Agreement stating that it basically describes the understanding between the Developer and Brownfield Authority that, to the extent that the taxes increment revenues are available, the Authority will reimburse the developer for eligible costs on the site semi-annually, that have already been approved by the Brownfield Plan.

Motion by Mr. Austin, supported by Mr. O’Brien, to authorize the acceptance of a Reimbursement Agreement with the Madison Heights Brownfield Redevelopment Authority and Patina Park Place as follows:

04. Madison Town Center Proposed Brownfield Redevelopment Plan

Community Development Director Schafer reviewed the proposed BRA Project No. 06-02, for a commercial development project entitled “Madison Town Center” at the northwest corner of John R Road – a retail commercial development to include the existing Save-A-Lot Market at 21117 John R Road as well as remaining parcels. The property consists of seven (7) parcels of contiguous land where one of the parcels is a former gas station property that is a leaking underground storage tank (LUST) site contaminated in excess of Michigan Department of

Environmental Quality (MDEQ) Generic Residential Cleanup Criteria (GRCC). No City funds are proposed to reimburse this Brownfield project for clean up and remediation costs. The applicant has requested DDA funding of portions of the public improvements since local non-school tax increments are already captured by the DDA and to satisfy State requirements for a local match to demonstrate a local commitment to the project. Should the Board approve the project it would then be submitted to City Council for approval.

Mr. Ed Bahoura presented his proposed plans for a shopping center site, and is also proposing a small plaza area with benches, a monument (including flagpoles), and property improvements for the John R and 11 Mile corner that will be complimentary to the DDA's Clock Tower and wall, and other streetscape enhancements. The proposed project will require the remediation of contaminated soil and groundwater found primarily under the portion of the property formerly used by a gas station.

Community Development Director Schafer also stated that the State has advised that the project is eligible for a Local Site Remediation Fund and that the BRA might consider creating the fund through an extension of the tax increment capture period; which can be used to leverage future BRA projects through loans for environmental clean up. The BRA may wish to recommend extension of the increment capture period for up to five additional years or the amount of the requested reimbursement (\$286,354), whichever comes first. The attached plan details a two-year capture, which would generate an estimated \$119,101 for the Local Site Remediation Fund. Mr. Mann stated that the Brownfield Redevelopment Authority Act allows the City and the Authority to set up a revolving local site remediation fund to allow capture of local school revenues for up to five years once the developer has been reimbursed.

Motion by Mr. Austin, supported by Mr. Lucich, that the Brownfield Redevelopment Authority recommends approval the Madison Town Center BRA Project to City Council and that the documents be reformatted to include overcapture for up to five additional years of local tax increment funds for a Local Site Reimbursement Fund, and to adopt the following resolution:

WHEREAS, a Brownfield Plan, dated July 31, 2006, and amended November 6, 2006, and December 28, 2006, has been prepared pursuant to Act 381, Public Acts of the State of Michigan, 1996, as amended ("Act 381"), a copy of which is on file with the City of Madison Heights Brownfield Redevelopment Authority (the "Authority") and the City Clerk of the City of Madison Heights; and

WHEREAS, in accordance with Act 381, the Authority is authorized to approve the Brownfield Plan and recommend it for approval to the City of Madison Heights, County of Oakland, State of Michigan (the “City); and

WHEREAS, the Authority has made the following determinations and findings:

- A: The Plan, as amended, constitutes a public purpose under the Act; and
- B: The Plan meets all of the requirements for a Brownfield plan set forth in Section 13 of the Act; and
- C: The proposed method of financing the costs of the eligible activities, as described in the Plan, is the responsibility of the property owner to arrange the financing; and
- D: The costs of the eligible activities proposed in the Plan are reasonable and necessary to carry out the purposes of the Act; and
- E: There is captured taxable value resulting from the adoption of the Plan; and
- F. The applicant shall revise the Brownfield Plan to match the revised TIF Schedule, dated December 28, 2006, to reflect the motion of approval.
- G. BRA submit a proposed form of Reimbursement Agreement to include the following:
 - a. Applicant agrees not to contest any future sidewalk or road Special Assessments pertaining to the subject property or within adjacent rights of way.

WHEREAS, as a result of its review of the Plan, the Authority desires to recommend approval of the Plan.

NOW, THEREFORE, BE IT RESOLVED AS FOLLOWS:

The Chairperson and Secretary have delegated authority to sign contracts and grants and reimbursements to perform Brownfield activities consistent with the Brownfield's objectives, on behalf of the Brownfield Authority, but retain overall responsibility for their actions.

The Authority hereby directs the City Clerk, at least ten (10) days before the meeting of the City Council at which this Plan will be considered, to provide notice to and fully inform the taxing jurisdictions in which the project is to be located and which are or may be affected by the financing Plan about the fiscal and economic implications of the proposed Financing Plan, in accordance with Sections 13(10) and 14(1) of the Act; and

Assessment grant dollars provide funding to conduct initial environmental assessment activities (Phase I, Phase II and Baseline Environmental Assessment). The key objective is to encourage the redevelopment of sites, which may be complicated by the presence of hazardous substances. The other important objective is to trigger additional investments. BRA-19-7. Brownfield Tax Increment Financing Overview Presentation.

Elizabeth Masserang of PM Environmental and Kevin Baker of Landmark gave an overview of Brownfield Tax Increment Financing (TIF) and Public Act 381. They noted what a Brownfield is, potential Brownfield Sites, and the process. Details were given about the Madison Center project. Originally, the project plan was to clean up the obsolete site and release. However, with the signing of

the BJ's, the developer was able to demolish the Kmart and reduce the footprint of the Kmart portion of the shopping center by a factor of 40%. This demolition triggered underground storage retention upgrades that were not originally factored in. The project is about to move to Phase II but a TIF is needed to make Phase II a reality. Without a TIF, the plan is to pave the parking lot and lease as is; with a TIF, the remaining shopping plaza will be updated and remodeled, attracting nation-wide premium store fronts. The Brownfield plan being request is for 25 years. There will be a 20-year payback period with 5-year capture for the Brownfield Authority, including a 10% administration fee retained by the City.
